

CONTINUING A GREAT PARTNERSHIP

Cougar Automation has been recognised by Mitsubishi Electric as an Approved Solution Partner signifying it has reached an exceptional standard of expertise in the integration of products and services.

We are pleased to announce that we have been recognised by Mitsubishi Electric as an Approved Solution Partner. This recognition signifies Cougar Automation to have reached an exceptional standard of expertise in the integration of products and services. To be considered for this partnership level, an organisation must be “an established company with a proven track record in the engineering and installation of projects using a range of automation products and solutions across a variety of industry sectors.”

“We are proud to continue our long-standing partnership with Mitsubishi,” says Mark Campbell, Business Unit General Manager of Cougar Automation North. “We will strive to maintain our position as a partner of choice delivering all projects to the highest possible standards.”
