

OUR CLIENTS

We work with a wide range of clients, including those in the water and waste water, oil & gas, manufacturing, food processing, waste recycling, energy, infrastructure and transportation industries.

Our projects have covered a host of solutions, including:

- ✓ New PLC, HMI & SCADA systems
- ✓ Extending and modifying existing PLC, HMI & SCADA systems
- ✓ Upgrading legacy PLCs, HMIs or SCADA systems
- ✓ Industrial data systems [e.g. capturing, reporting and analysing data]
- ✓ Downtime and reliability monitoring systems
- ✓ Batch processing and recipe management systems
- ✓ Web-based monitoring systems
- ✓ Remote monitor of equipment on multiple sites
- ✓ Smart phone and tablet plant visualisation
- ✓ Energy management systems
- ✓ Interfacing disparate systems
- ✓ Integrating industrial control systems to business systems [e.g. ERP, SAP]
- ✓ Cyber Security survey and risk assessments
